### To the Public.

EVERY BUSINESS MAN who consults his own interest, with a small blunet of the columns of THE DAILY SENTINEL,—especially when he can do so at the same prices charged by other papers, and secure more than double the advantage of circulation.

This is no boast, but EVERY WORD TRUE.

THE SENTINEL, having double the circulation IN THE CITY, and more than treble OUT OF IT, of any other paper here, renders it far the cheapest and most desirable medium in Milwaukee for all classes of Advertisements.

### REPUBLICAN RALLY TO-NIGHT!

A *business* meeting of the Republicans of our City is to be held at the Head-Quarters of the Central Club, in the Albany, opposite the Newhall House, *to-night*. It is earnestly desired that all our working and "Wide Awake" Republicans should be on hand.—We have but *four days* for WORK. Let every hour be well employed! REPUBLICANS; COME TO THE MEETING TO-NIGHT!

### MONEY IN OUR POCKETS!

FARMERS OF MILWAUKEE COUNTY! Are you content to pay forty cents out of the price of every bushel of wheat to get it to New York, there to await a fluctuating foreign demand, which does not begin to pay for the manufactured goods we import?—Would it not be better to have a reliable home market, and save freight both ways? To avoid the loss and waste of pure grain raising? To get cloth for farm products at our doors, without sending to England, France and Germany after them.

And you GERMANS, who have experienced in your own country the benefits of a protection to Home Industry, even under a despotic government, are YOU satisfied with the present destructive system, which compels you to go back to the old country for the clothes you wear, the iron for your tools, the glass for your windows? Can not your skill profitably supply these here from our immense natural resources? Ought not your labor to find employment on these manufactures in your new homes?

Cast your votes, then, for the protective system, and FOR THE MEN WHO FAVOR IT.

VOTE FOR THE CHICAGO PLATFORM! FOR LINCOLN AND THE WHOLE REPUBLICAN TICKET!

### BE TRUE TO EVERY CANDIDATE.

Every man on the Republican ticket—from President to Coroner—is worthy of every Republican vote. They are, one and all, the representatives of the party and its principles, and should all be supported in good faith.

We have not deemed it worth while to waste words about men. In this contest, men are secondary. It is the principle involved which kindles the zeal and enlists the sympathies of the people. The defeat of any one candidate would impair the moral power of the victory to be achieved. This is felt by every true man; and whatever the distracted Democracy may do, REPUBLICANS WILL NEITHER BOLT NOR SCRATCH A NAME ON THEIR TICKET. If any do, in such a contest as this, they will prove themselves unworthy to wear the livery of Freedom.

### The Right Spirit.

We have been permitted to make the following extract from a letter written by an active Republican in Eden, to a gentleman in this city. We give it to the public because it breathes the right spirit, as well as to urge our friends all through the county to emulate the example of patriotic devotion which it presents:

"We probably have as good an organization and as enthusiastic and determined a set of Republicans and Wide Awakes in this town, as any town in the county can boast of—at least we don't intend to be behind any. The Wide Awakes are constantly making inroads upon the German voters.—We have appointed a committee of five whose duty it is to see that *every Republican vote is deposited in the ballot box*, and have empowered said committee to order out any Republican's team on election day, and put the same in charge of one or more Wide Awakes, whose duty it shall be to proceed immediately to bring any Republican designated by said Committee, who has not deposited his ballot in the ballot box. And the Republicans and Wide Awakes, *in large meeting assembled*, have unanimously resolved to place their teams and their own services at the disposal of said Committee on that day. Who will say we are not organized? If you could have seen the enthusiasm manifested at the adoption of the resolutions, of which the above is a *synopsis*, it would have done your heart good.—*Buffalo Express, Oct.* 31.

That is, indeed "THE RIGHT SPIRIT." It is worthy of imitation EVERYWHERE.—How say the REPUBLICANS of Milwaukee city and county? Are YOU equally ready and willing to work for the GOOD CAUSE next Tuesday? Will your RALLYING COMMITTEES and CHALLENGERS be on hand?—Will there be a FULL SUPPLY OF BALLOTS at every poll? Is EVERY MAN PREPARED TO DO HIS UTMOST TO SECURE THE SUCCESS OF THE REPUBLICAN TICKET? TUESDAY WILL TELL!

### Fusion in New Jersey.

A ticket composed of three Douglas, two Bell and two Breckinridge men has been agreed upon in New Jersey, and will receive the votes of nearly all opposed to the election of Lincoln. This renders the state sure against the Republicans.—*News of yesterday.*

"Fusion" will not help the K. N. Sham Democracy in New Jersey, any more than it did in Pennsylvania, Ohio or Indiana.—The truth is, that every sincere Democrat is DISGUSTED with the "dicker and trade" resorted to by the leaders of the Know-Nothing and Democratic parties. "Fusion" will add thousands to the Republican majority in New Jersey, as in every other Free State. PEOPLE CANNOT BE BOUGHT AND WILL NOT BE SOLD.

SOUTH CAROLINA ELECTS.—South Carolina held her State election on Tuesday, the 20th instant. The results have finally been ascertained, but not the precise majorities.—The Legislature is largely Democratic, or as the papers denominate it, Union, though many of its members are blatant about dissolving the Union. Senator HAMMOND, however, is of a different mind, being a candidate for re election. We notice that we are no longer to have the services of Mr. LAWRENCE M. KEITT in our National Legislature. The following are the names of the Congressmen elect: First District, JOHN MCQUEEN; Second, WM. PORCHER MILES; Third, LEWIS MAYER; Fourth, MILLEDGE L. BONHAM; Fifth, JOHN D. AIKMORE; Sixth, WM. W. BOYCE.

A LITTLE GIRL, with her baby brother in her arms, became so frightened at the near approach of a train of cars in Cincinnati, on Saturday, that she dropped him upon the track, and the train passing over him, completely crushing his skull.

### *Prophecies.*

Our neighbors of the *News* have, or profess to have, ideas about the election, which seem rather queer to Republicans, and do not, in the opinion of Democrats (who have had bitter experience in that way) form a safe basis for betting. Papers, which insist that DOUGLAS may be the next President, are expected to say that New York will not go for LINCOLN, but papers with a reputation to preserve don't talk in that foolish way. We see something in the same sheet about LANBASER's getting 2,000 majority, and ARNOLD's election, and they are confident that this county will elect all the Democratic nominees for the Assembly.

Let nobody be alarmed by that sort of talk. It means about as much as the *News' fears* of the dissolution of the Union. We *are going to carry* New York, to give from 15,000 to 25,000 majority for LINCOLN in this State, to elect all our Congressmen, many, if not most, of our Assemblymen in this county, with a bright prospect for the whole of our county ticket. Republicans know this, and Democrats are beginning to find it out. There is a wonderful *stampede* from the Democratic ranks. We beat them in the meetings in this county, we beat them to death in enthusiasm, and we mean to beat them in votes. They spend the most money, and bleed their officeholders copiously. We must work the harder, and trust the people for the result. VOTERS OF MILWAUKEE COUNTY! DO YOU GO FOR THE MONEY OR THE MEN?

MAKING ENGINEERS RESPONSIBLE.—On Saturday last, a freight conductor on the Michigan Central R. R., finding the switch at which he was directed to await the passage of another train, rather crowded, undertook to run his train to the next switch. The result was a collision with a passenger train, by which considerable damage was done, but no lives lost.

Both conductor and engineer of the freight train have been discharged, and Superintendent RICE has now issued circulars to all the engineers, to the effect that they will be held responsible for running their trains where doubts exist as to having a clear track, whether conductors order them or not.

TWENTY-SEVENTH SENATE DISTRICT.—Mr. E. L. BROWNE, of Waupaca, is the Republican candidate for Senator in the 27th Senate District, lately represented by Mr. HANCHETT. Mr. BROWNE is competent and popular, and has been doing a good work for the cause. He deserves, as he will receive, a rousing majority.

### He Isn't Scared!

*From the N. Y. Evening Post.*

We print the following as a specimen of the replies which the Union circular is apt to provoke:

*S. J. Henry, Esq., Chairman of Committee, &c:*

DEAR SIR:—I am favored with a circular, signed by you, and addressed to "The Friends of the Union."

I feel honored by this attention—a mere item in the "sum total." Unfavored by "fortune" (so called,) and claiming no extra wisdom or influence, I yet do claim in all sincerity, to be an earnest "friend of the Union." I am not willing to concede that even you can be any more sincere in this friendship than I am.

You appear to intimate, however, that as a "friend of the Union" I am expected to aid in conquering a peace for the whole country by opposing the election of the Republican candidates.

May I (as one of some two millions of friends of the Union entitled to vote,) be permitted to say:—

1. Like vast numbers of others who believe as I do, I have many esteemed and valued personal friends and business correspondents in every part of this Union.

2. Every consideration — patriotic, personal, selfish—forbids that I should add a feather to any movement likely to cause the slightest injury or injustice to any one of those friends, or to the communities in which they live.

3. Long and careful study of all the issues referred to in your circular, only confirms and settles my deliberate and sincere conviction, (which I shall continue to act upon,) that the power, safety, and paramount prosperity of the whole country, and every individual in it, will be promoted by the success of the principles of the Republican party.

4 Conceding, of course, the same right to you of following your own convictions of duty, I shall do what little I can (I am not a politician) to secure votes for Lincoln and Hamlin. Very respectfully,

GEO. P. PUTNAM, Publisher.

NEW YORK, Oct. 29, 1860.

"ONE MORE TURN OF THE SCREW WILL FETCH 'EM."—Yesterday, in the city of New York, when, in accordance with the panic programme, stocks were being struck down at disastrous prices, Mr. Augustus Schell, the Collector of the Port, exclaimed. "One more turn of the screw will fetch 'em!"

The property of the citizens of this State was being sacrificed, causelessly and wantonly, at the rate of a million a day, for party effect, when a Federal office holder exultingly exclaims: "One more turn of the screw will fetch 'em!"

So far, the disunion panic has only reached the stock market. But it will soon, if it goes on, bring general ruin. And from a condition of high, palmy, and general prosperity, with a bright bow of promise spanning the horizon, we shall be precipitated into pressure and distrust, deranging and paralyzing all our business interests.

But we tell Secretary Cobb and Collector Schell, that though by "turning the screws" they destroy the value of the stocks, and rob the widows and orphans of their income, they cannot change the purpose of the people. Each "turn of the screw," while wringing money from the pockets of their victims, will swell the army of Republican votes. So, go ahead, Messrs. Cobb, Schell, Watts Sherman, Alphabet Barlow and other Fifth Avenue Democrats, with your Disunion Panic. "Turn the screw" as often as you please. All that Republicans lose in money they will make up in votes.—*Albany Eve. Journal, 27th.*

A GOOD STORY.—Captain Kilmer, of the ship *Othello*, tells a good story. It appears that his crew is composed mostly of students from some college in the interior of New York State—all intelligent young men, and of wealthy families, and are treated very kindly by the captain and his officers. While off Cape Horn, on her passage out, the ship encountered a very heavy gale accompanied by hail and snow; and after lying to for many hours under nothing but a close reefed main-topsail, it became necessary to take in even that sail. All the "boys" were safely stowed below in the forecastle, when the mate went forward and sang out:—"Come on deck, all of you, and furl this main-topsail." Surprised, after the lapse of a few minutes, in not seeing the crew come up, the mate again went forward and said: "If you don't come on deck soon, this topsail will blow away."

"All right Mr. Sherman," was the reply. "Please tell the captain that we have concluded to let the old topsail blow away, *and we will pay for it!*"

### Get Your Tickets Ready!

CANDIDATES and COMMITTEE-MEN should see to it, *in season*, that a full supply of tickets is printed and furnished to every poll in the city and county. This should be done during the present week. Don't put it off till the last moment.

GRANVILLE.—The meeting held on the evening of the 31st inst., at the Union School House in Granville, was addressed by Messrs. G. A. STARKWEATHER and WINKLER. The meeting was well attended, and all were in the best of spirits and felt sure of success.—At the close of the speaking, three hearty cheers were given *for the whole ticket.*—GRANVILLE will do her whole duty on Tuesday next.

MUNICIPAL COURT, Nov. 1st.—Edward McGreavy, drunk. Fined $1 and costs.

Thomas Hannegan, assault and battery; fined $5 and costs. Paid.

Edward Burke and Dennis Kane, disorderly. Continued to Nov. 9th.

Edward Kunckell, assault with intent to kill. Defendant in Court, and ordered to recognize in the sum of $1,500 for his appearance Nov. 9th. *Before* that time it will probably be brought before the Grand Jury. Kunckell had a fight with Daniel Erdmann yesterday, and stabbed Erdmann in the abdomen, in the course of the fight, as is alleged. Knuckell is said to be a quiet fellow, ordinarily, but was in liquor at the time.

POLICE ARRESTS.—We are indebted to Policeman RHODES, Station House Keeper, for the following list of *arrests* made by the Police last month: Assault with intent to kill, 1; robbery, 2; murder, 2; grand larceny, 8; petit larceny, 6; assault and battery, 26; resisting an officer, 1; malicious trespass, 1; keeping house of ill-fame, 3; inmates of house of ill fame, 3; fornication, 2; selling liquor without license, 2; escaped from reform school, 5; escaped from jail, 1; vagrancy, 27; disorderly, 40; insane, 2; drunk, 46; violating bridge ordinance, 3. Total, 161.

WAUGH'S ITALY.—The panoramic views of Italy, which will be opened for exhibition at the Academy of Music for the first time, are said by professional landscape painters to be very superior in their design and finish. As these views give a representation of the most interesting portion of classic Italy. They will doubtless attract appreciative audiences.

DROWNING.—The storm which has prevailed in this vicinity since Wednesday evening has been very severe, accompanied with a strong wind. Immense quantities of water have fallen. The ponds are now full and ready to be frozen.

BEAR SKIN GLOVES AND MITTENS.—W. S. BACON, opposite BRADFORD BROS., on East Water street, has a large supply of the above seasonable articles, to which he invites the attention of customers, in another column.

NOT. MRS. GARTH.—The body found at Evanston a few days since and believed to have been recognized as that of Mrs. Wm. Garth, turns out to be that of a Mrs. Grady of Milwaukee, to which place it has been forwarded. The other body, found at the same time with the above, has been identified as that of Margaret Ahern of Milwaukee.—*Chicago Tribune.*

W. H. SHERMAN, Photographic Artist, on Wisconsin Street, produces some of the best pictures we have ever seen. He is comfortably located in commodious rooms, and with all the facilities for doing a lively business in the fine arts.

ACCIDENT.—A sailor by the name of CASPER SCHOEFFLER, on the schooner Farmer, was seriously injured yesterday morning by having his leg caught in the bight of a rope as the vessel was passing the Walker's Point Bridge.

### Our City.

We are frequently asked, by good Republicans, "Is there really any hope of carrying the City?" We believe that there is. Strange as it may seem to those who have battled in the good cause here for years, in an almost hopeless minority, it is the fact, to day, that, if all the Republicans believed it and would work as if they believed it, we might *carry the City of Milwaukee!*

The *stampede* from the Democracy is general. Their strongholds among the Germans are completely broken up; the Second, Sixth and Ninth Wards will give a Republican majority, and even in the Third Ward the Democratic majority is dwindling. Our greatest danger is from inactivity of old Republicans. We call upon them to wake up and see the change, and see that there is hope soon for Milwaukee.

Especially do we call upon the Republicans of the *Seventh Ward* to see that their Ward is not lost through lack of energy—The Seventh Ward ought to be Republican by a handsome majority, and yet to-day there is more danger that the Democracy will carry that Ward than either the Sixth or Ninth.

We know that the residents of the Ward are called on to do a great deal for other portions of the city and State, and that the Republicans there are not luke-warm in the cause; but there is danger that their own Ward is overlooked and not thoroughly organized. We trust that it will be attended to while there is time. Let the organization be completed at once, and the *Seventh Ward* will be able to claim its proper place among the Republican Wards of Milwaukee.

### Qualifications of Electors.

The Statute declares that every male person of 21 years, or upwards, belonging to either of the following classes, who shall have resided in the State for one year next preceding any election, shall be deemed a qualified voter at such election:

SECTION 1. Every male person of the age of twenty-one years or upward, belonging to each of the following classes, who shall have resided in the State for one year next preceding any election, shall be deemed a qualified voter at such election:—

1. White citizens of the United States.

2. White persons of foreign birth, who shall have declared their intention to become citizens, conformably to the laws of the United States on the subject of naturalization.

3. Persons of Indian blood, who have once been declared by law of Congress to be citizens of the United States, any subsequent law of Congress to the contrary notwithstanding.

SECTION 2. No person under guardianship, *non compos mentis*, or insane, shall be qualified to vote at any election; nor shall any person convicted of treason, felony, or bribery, unless restored to civil rights; nor shall any person, who, being an inhabitant of this State, may hereafter be engaged, directly or indirectly, in a duel, either as principal or accessory, be permitted to vote at any election; nor shall any person who shall have made or become directly or indirectly interested in any bet or wager depending upon the result of any election at which he shall offer to vote, be permitted to vote at such election.

The foregoing provisions apply to all the candidates to be voted for on Tuesday next.

### First Ward Wide Awake.

A large and spirited meeting of the Republicans of the First Ward was held, pursuant to notice, at Bielfield's Hall, on Wednesday evening. Able and capital speeches were made by the President of the Club, J. B. D. COGSWELL, H. E PAINE and OTIS H. WALDO, Esq.

The following resolutions were passed by acclamation:

*Resolved*, That we will, one and all, from now till the sun goes down on the sixth of November, labor heart and hand, for the success of the whole Republican ticket; and roll up such a majority as will strike terror to the corruptionists of the County of Milwaukee.

*Resolved*, That JOHN LOCKWOOD shall, without peradventure, be the next member of Assembly from this District.

On motion, the meeting adjourned.

J. B. D. COGSWELL, Pres't.

G. A. MEGARIGLE, Sec'y *pro. tem.*

BEAUTIFUL LINES.—The following touching lines were printed on slips at one of our city printing offices, and distributed among the friends of the poet:

Verse 1st

T'was just about twelve years ago
My Father he did say to me
My Son; now take your Axe and hoe
And go to work, upon some other farm

2nd

Accordingly I did my Father leave
And walk'd to New York City for to find
A chance of making a great deal of money
Or something else that might at least be useful

3rd

In that great place I did remain a week
And soon fell in with young men by night and free
Besides some others and a little boy
All going west in the service of the North American fur trading Company

4th

We forthwith went into the upper lakes
To hunt for furs and other kinds of skins
And many cans foul in the savage french Indians
Who came very near killing us.

5th

Beyond the Rocky mountains upon a day
In June I think it was one Johnson Stubbs
Did cruelly resolve to kill his friend
Thereby to get the money he received by way of price
For canoes and other traps which he had furnished to the aborigines

6th

This cruel monster did a sharp axe take
And three times hit his friend upon his head
And then kept a pounding on him and a pounding on him
Till there was no life left that you could perceive

7th

The body (which the murderer hid) was found,
And he was on suspicion caught and tried
The weather then was very cold indeed
And Buffaloes and other fish were scarce

BODY OF OTTO LAVERENZ FOUND.—An inquest was held by William Fisher, Esq. This *body* is described as being about 5 feet 6 inches high; front teeth gone—apparently knocked out since his death; back teeth sound; had on a white flannel shirt, with a blue stripe on the sides; a small portion of a fine linen shirt bosom, with two heavy gold studs; a pair of white worsted socks, and new Congress gaiters. There was a wound through the left hand; a bandage around the left arm, well done, as if by a surgeon, to check the flow of blood into the hand; a red bandana handkerchief loosely around the neck, as if for a sling for the arm.

The above description was published on Tuesday. Since that it has been ascertained that the body is OTTO LAVERENZ, of this city.

THE EXTENSIVE SALE of Steel Engravings at the Newhall (House) Store Room, No. 5, will be continued, commencing this evening at 7 o'clock. The varieties of pictures are very great, and Wall, the auctioneer, is knocking them off very cheap. Now is the time to purchase pictures for your houses at great sacrifices.

ELGIN RELIEF FUND.—The Portage City *Dramatic* Society and Liederkranz have sent me $13, being the proceeds of a performance in that city, for the benefit of this fund.

☞ The Cost will be Trifling.☜

DR. S. A. WEAVER'S CERATE—IT IS now about ten years since this article was first introduced to the public, and such has been its success, that from the annual sale of a few thousand bottles of it, the sales have now reached Millions in the same length of time. Now what is the reason of this great increase of its use? Simply from the fact that there never has been an article that could be compared to it, for curing many of that class of diseases which always been said to be incurable. It has effected permanent cures. Another reason of its great success is from the fact that when one person uses it, he finds out what it will do, and tells it to his neighbors, and the use of one bottle is sure to make sale of hundreds of others. We have never puffed it, or tried to force it upon the pub lic, but have left it to make its own way and establish its own reputation, and it has so far done it, that in most places where it has been introduced, it has taken the place of all other Ointments and Salves.

THE FOLLOWING FROM MESSRS. Gage & Mather, prominent Druggists of Sparta, gives further evidence of the great popularity of our Medicine.

SPARTA, Monroe Co., Wis., July 7th, 1859.

MESSRS. N. CRANDALL & CO.—Gentlemen: It is with pleasure that we speak a word in commendation of your very valuable medicines, "Perry Davis' Pain Killer," and "Dr. Richardson's Sherry Wine Bitters." They are of great merit, and already too well known to the public at large to need any very special notice from particular individuals. The Pain Killer has become a household remedy all through the West, and the Sherry Wine Bitters are superior to any bitters we have ever met with, and as they become known the demand increases, and all find from their use satisfactory results.

Most respectfully, GAGE & MATHER.

The Sherry Wine Bitters are for sale by Greene & Burton, John H. Rice, U. H. Gardiner & Co., Lafayette Lake, and druggists generally in Milwaukee and the State. oct18'60d1w&wlm

EVERY MOTHER AND HOUSEKEEPER must often act as a family physician in the numerous ills and accidents that occur among children and servants. For many of these cases I have used *Davis' Pain Killer*, and consider it an indispensable article in the medicine box. In diarrhœa, it is much used with great success. For cuts and bruises it is invaluable.—*N. Y. Examiner.*

## OUR COUNTY TICKET.

Friends! we have a ticket fit to vote for, fit to *work* for! Every man on it ought to be elected. The people know that PHELPS is the right man for Sheriff, and that H. E. PAINE knows more about the duties of Clerk of the Court, and can perform them better now, than JACOBS would after ten years' experience.

TIM. CARNEY has tried, times without number, to get the Democratic nomination for County Treasurer, and when beaten, he has not been unwilling to try the stump. Is he any more fit for the place now, Democrats, than when you before refused it to him? Does his persistent pursuit of that office entitle him to receive it from the hands of the people? It would seem that the County Treasury would be safer in the hands of DANIEL SCHULTZ, who has not spent time nor money to get the nomination, and consequently does not expect to reimburse himself at the expense of the public.

Since his nomination, Mr. COGSWELL has been with Mr. H. E. PAINE, earning the gratitude of Republicans by his untiring efforts for the success of the ticket. Beginning where success seemed almost impossible, they have advocated the claims of the Republican party among men who had scarcely heard of a Republican party, and secured respect and support for our principles, from those who have heretofore ignorantly combated them.

Mr. COGSWELL'S talents have shown to good advantage, and have illustrated the good sense of selecting him to oppose his powerful competitor on the Democratic ticket. He can be elected, if Republicans will help him as he has helped them. And a better man for Prosecuting Attorney cannot be found in this State. Only those who expect to be indicted can object to his election. DON'T FAIL TO VOTE FOR COGSWELL!

WILLIAM MELMS is an energetic, capable, intelligent man, worthy of the nomination he has received, and the interests of this county would be well subserved by his election. The Germans with reason prefer him to the Democratic nominee for the office of Clerk of the Board of Supervisors.

Mr. PIETSCH, our candidate for Register of Deeds, is a worthy competent man, who, by long familiarity with the records in that office, is thoroughly adequate to discharge the duties of that position. In this respect he is a much fitter man than his antagonist.

Mr. CROUNSE is a well-known and much respected resident of the Southern part of the county; a practical surveyor, and he deserves to be elected to the post of County Surveyor.

Our nominee for Coroner, an Englishman, resident in the Third Ward, a master carpenter by trade. He will get a heavy vote in that Ward, and every where else from those who know him. Don't forget to vote for JOHN FRENCH.

None of these men bought or intrigued for a nomination. They are presented to the people of the county, because, in the judgment of one of the very best Conventions we ever saw, they were as fit men for their posts as could be selected. It is for the people now to show their wisdom by rallying these nominations at the polls. REPUBLICANS, IT IS IN YOUR POWER TO BRING ABOUT THIS RESULT.

### Republican Principles.

The Newark *Mercury* well says that one of the most cheering signs of the present contest is the fact that it has drawn out the great leaders of the Republican party. The speeches of Mr. SEWARD, of Mr CHASE, of CARL SCHURZ, have aroused public attention and attracted to the cause they represent the fullest examination. They have discussed principles, and shed over them the light of their brilliant intellects. They have not spent their time in attempting dishonest coalitions, but in enlightening the judgment of those who are to decide public issues. They have proved themselves worthy to be true leaders of the Republic, by showing the means through which a great empire may advance in prosperity and honor, while recognizing the rights of Humanity and the claims of Freedom.

REPUBLICAN GATHERING AT COLUMBUS.—There was a very large and enthusiastic Republican meeting at Columbus, on Wednesday afternoon and evening, which was addressed, with great ability and the best effect, by Judge JACKSON, of Madison. The Judge, it is hoped, will be present at our Republican Head-Quarters, Albany Block, *this evening*, and if so will give us a good talk.

### Northern Pluck vs. Southern Chivalry.

Among the Anglo Saxons few traits of character are more admired than Pluck.—Old England was, and is now, famous for it. It has given her her proud position among the nations, and British pluck is a proverb the world over. Americans, too, are proud to claim, as a nation, the inheritance of that quality. We honor and admire the man of pluck, be he friend or foe.

The voters of this district will show their appreciation of pluck in their vote for JOHN F. POTTER next Tuesday. We are utterly mistaken in the strength of this sentiment if he does not receive a majority greater than he ever dreamed of.

Why, when the news of his discomfiture of the chivalry came over the wires last winter, there was hardly a being in this district that had an intelligent soul as long as a mustard seed, but was thrilled with feelings of proud exultation. There was the ring of *genuine pluck* about the man that made every one's heart vibrate in unison.

And not only in this District, but all over the Northern States every one felt as though he had himself a share in the honor our Representative had reaped. He stood up for the whole North. He vindicated Northern character.

We believe that the conduct of Mr. POTTER, in the PRYOR matter, has also done more to kill out the custom of Southern bullying by the *duello*, than anything that has happened in the last twenty five years.

Now, can any one believe that while the whole East is shouting plaudits over our Representative, and awarding him a place as one of the chieftains in the Republican host, can any one believe, we say, that this District is passive and indifferent to an endorsement of his conduct?

Be assured the constituents of JOHN F. POTTER appreciate his manly and noble character, and the invaluable services he has rendered to the Northern people and the Republican cause, and while the full round Republican vote will be given him, there are hundreds of quiet men who mingle little in politics and generally vote the Democratic ticket, but who love good downright *pluck*, and will put in a ballot to have it still exhibited on the floor of Congress in defence of Free Speech and Northern Rights.

The 6th of November will show which has the best market in the First District of Wisconsin, *Northern Pluck*, or *Southern Chivalry*.

### The Canvass in the Third District.

*Correspondence of the Sentinel.*

OSHKOSH, Oct. 30, 1860.

The Mass meeting here to-day was, in point of numbers, spirit and brilliancy of display, a complete success. It is conceded to have been the largest gathering of the campaign in the Third District. There were *two miles* of Wide Awakes from Appleton, Neenah, Menasha, Ripon, Berlin, Rosendale, Fond du Lac, Waupun, &c., and several *acres* of people. Gov. RANDALL and Sec'y HARVEY were the speakers and they did their work well.

Judge SLOAN is making a very thorough canvass of the District and will poll a very heavy vote. Attorney General HOWE has been most zealous and persevering in his campaign labors. Sheriff FARNSWORTH, Major BALCOMB, of Oconto, and others, have been equally industrious in behalf of the good cause. You will see the fruit of their labors in the returns of next Tuesday's election. ALL'S WELL IN THE THIRD DISTRICT. L.

### Mammoth "Cave" at Madison.

The DOUGLAS men have, for some weeks past, announced a final "grand rally of the Democracy at Madison on Wednesday, Oct. 31st." A brilliant galaxy of speakers was promised for the great occasion. The Chicago *Times & Herald* of Tuesday last proclaimed that it would undoubtedly be the grandest demonstration ever seen in the State. Well, here is what came of it. We quote from the Madison *Journal*:

"Dinna ye hear the Slogan?
'Tis Douglas, and his men."

The "Grand Democratic Mass Meeting" which has been advertised on bills about the size of a barn door all over the country for the past three weeks is transpiring as we write.

| THE PEOPLE, | DITTO |

There was never before such an utter failure, in the way of a public meeting, witnessed in the State. When the Western train came in at one o'clock, the busses came up without a single passenger. At two o'clock, when the meeting was to commence, there were not twenty-five persons more than usual in from the country. No procession was attempted. There was nothing to make one. * * * * *

At three o'clock we called into the meeting, not hearing anything of "the slogan" outside. There was not to exceed one hundred Democratic voters in the room. The whole audience might have numbered 150. Immediately in front of the speaker's stand was a collection of small boys. Outside of these, stood the "little giant's" admirers, three or four deep, encompassed by a ring of grinning Republicans.

THE CANADA GRAND TRUNK RAILWAY TROUBLES.—BARING & BROTHERS have made the threatened attachment of all the rolling stock, locomotives and cars, of the Grand Trunk (Canada) Railway, to secure their debt. The road has a large business upon its hands, the receipts for the middle week of October being $80,000; or an increase of $20,000, and needs more freight cars to perform its work. It had contracted with a Portland company for $200,000 worth of such cars, and nearly all were done when the financial embarrassments of the road obliged it to throw up the engagement.—Probably the BARINGS, who have got the elephant on their hands, will have to run the road, and hire or buy these new cars, in order to perform its business.

### How it Works.

*From the New York Tribune.*

A New York merchant informs us that he met on Friday and Saturday three solid business men of our City who had just made up their minds to vote for Lincoln. One of them said, "I have always been a Democrat, but I am before all things a Union man, and I cannot countenance any party that seeks to win an election by threatening Disunion." Another said: "It is clear that Lincoln is to be elected, and the only question to be settled is, 'Shall his election be respected and obeyed, as elections have hitherto been? or shall there be a serious attempt to break up the Union?' I shall vote for Lincoln merely to emphasize the determination of the American People to maintain the Union at all hazards. I shall vote for him to give due notice that all schemes of Disunion must fail."

The third said: "We cannot stand three months more of political panic-making in order to affect the Presidential Election: We must settle the question now, or business will be wholly arrested. To throw the election into the House, where no one has a majority, may not break up the Government; but it will certainly protract the present anarchy and uncertainty until March next. I cannot stand this; and I shall vote to close the contest at once."

These three instances occurred within the limited observation of a single merchant; there are doubtless hundreds like them, and probably thousands. Unless we are grossly deceived, the late political panic, so wantonly produced for partizan and stockjobbing purposes, has added largely to Lincoln's vote. Judicious friends now say that Lincoln will have nearly or quite 40,000 in our city.

We trust the engineers will not be discouraged, but go ahead. If they have done their worst with the Stock Market, let them follow the lead of their Herald and get up a run on the banks. That will bring nearly every one who has anything to lose to the conclusion that, though the Union can stand three months more of political panic-making, Business *cannot*; and that every interest demands the election of Lincoln by a decisive majority.

HOUSE BURNED.—We regret to learn that the house of Wm. A. Stowell, of Cottage Grove, was burned last night with most of the furniture. The loss is in the vicinity of $1,000. It was, however, fully insured in the Madison Mutual, so that Mr. Stowell will lose nothing.—*Madison Journal.*

## MINNESHEIK COUNTY.

**Its Soil and Resources—The La Crosse, Viroqua and Mussoda Railroad.**

*Correspondence of the Sentinel.*

LA CROSSE, Oct. 31, 1860.

A few days since, having received an invitation from a friend to accompany him on a speech-making trip, I turned my horses' heads towards the county now known as Bad Ax. I had been here once before and was then agreeably surprised at the nature and character of the country that was opened up to my vision. Judging from the name, Bad Ax, I had been led to believe that the county was bad, decidedly so. I had supposed that it was not only rough, but all timbered; and of a rather thin and poor soil. As to my suppositions and conjectures, erroneous as they have been, I believe they were the same as entertained by the community generally. I have travelled not a little on the Mississippi and have heard travellers express their opinions, and they most always given with a shrug of the shoulders, as though there was something repulsive in the name, Bad Ax.

The people of this most flourishing county feel that there is something in a name, and they feel justly, that they have been entirely lost sight of, that they are regarded as in the backwoods and of no much account; and they are inclined to think it is on account of the "Bad" there is in their name, for certainly there is nothing bad in their soil or county.

"Minnesheik" is said to be an Indian word for "Bad Ax," and, in all probability, application will be made at the next session of the Legislature for a change of name, and, if granted, Bad Ax county will follow the example set in other portions of the State of adopting and retaining the more euphonious and prettier sounding Indian names, and of discarding such senseless, jaw-breaking appellations as "Bad Ax."

Minnesheik county then, lies on the Mississippi river, between the counties of La Crosse and Crawford, and also midway between the La Crosse & Milwaukee and Milwaukee & Mississippi Railroads. It comprises about twenty-seven townships of land—being over half a million of acres—a much larger area than either the counties of Rock or Walworth, and, believe me, just as good land as lies out of doors in the State of Wisconsin. I am well aware that in saying this, I shall be saying a great deal, and many will think it hard to believe. I have seen some of Dane, Rock, Walworth, Dodge, and other of the many "garden" spots in good old Wisconsin, but, after all, there is not a county in the State that contains any better land than Minnesheik. Probably one-third of this is prairie—fine rolling prairie, the soil being a rich clayey vegetable mold. Another portion—say one-third—is oak-openings and ridges, covered with oak under-growth or "grubs." In many places farms have been opened up, and the cultivation of the soil reveals to us a clayey loam, well adapted to wheat, and on these broad ridges wheat does remarkably well.

The balance of the land of this county is timbered, and that pretty heavily. This is an advantage, as the timber is needed in the other portions. The soil in the timber country is a rich clay loam, thoroughly impregnated with vegetable mold. When cleared of its timber, it produces as fine wheat, corn, potatoes, etc, etc, as can be raised. The roots of the trees run deep, allowing of the plow being run close to the stumps.

The recent census, developes a heavier population than had been anticipated—the number being about 11,000. Five years ago, the counties of La Crosse and Bad Ax had each a little over 4,000 people. Now the former has 13,500, and the latter 11,500. Considering the entire absence of large towns, railroads, etc, coupled with its bad name, I think Bad Ax, or Minnesheik, has done well. Large portions of the inhabitants are from Ohio and the New England States, though in some parts there is a good sprinkling of Norwegians.

The great crop is now wheat—though the raising of stock is being taken hold of. There is not a finer region in the world for mixed husbandry—grain, cattle, horses, hogs and sheep cannot do otherwise than well here, and I will venture the opinion that the hill sides and northern slopes of this county will yet become noted for its fruit, as well as for its sheep and cattle. The fine corn raised, of course, will tell you that ere long pork will form a leading article of export.

For the year 1860, the surplus wheat of this county must amount to not less than 1,000,000. By some, it is estimated at a much higher figure. How to get rid of this is the main question, now. Go in what direction you will, it takes from 35 to 50 miles of teaming to get to market. The people in thinking of this are led to inquiries if their condition cannot be bettered.—They ask, why cannot we have railroad facilities? They lie between what is to be the terminus of Minnesota's railway system, at La Crosse, and the roads at the Southeast. They begin to see that it will be of some advantage to them to have a railroad from La Crosse to a favorable point of junction on the Mil. & Miss. R. R. They see that such a road would not only give them an outlet southeastwardly for their produce, but that it would carry through their county a large stream of travel, and that thus their many advantages would become known to the world about them—their property would become enhanced in value, and their position be one of importance in the State.

If Minnesheik Co. will be but true to herself, she can soon rank second to no county in the State in point of wealth and population, (I except of course Milwaukee,) for she has elements within her limits to make her such if she will but develope them, and I believe if she will take the initiatory steps, capital will be induced to take hold and help her. She must, however, show others that she has confidence in herself.

There is, in Minnesheik county, an abundance of water power, which, taken in connection with its fine timber, will give it a front rank as a locality favorable to manufactures of whatever nature, as well as for the purpose of flouting her vast crops of wheat.

Being on the highway between important systems of railways, a liberal charter for a railroad was procured near two years ago. A company has been organized under this charter, who now propose to survey the road, and prosecute the work of its construction. It was proposed at first to build the southern half of the road from Viroqua to some point on the Mil. & Miss. R. R., at or near Mussoda. This road constructed, will prove a very important feeder to the Mil. & Miss. R. R., giving it the business which now goes down the Mississippi, or over the La Crosse road. Will not the Mil. & Miss. R. R. interests see *their* interest in this matter, and help in this work? If some outside help were to be furnished, it is believed the counties of Richland and Minnesheik will take hold manfully and help to push the work along.

That this road will ultimately be constructed, there is but little doubt. The country through which it is to pass, *needs it more.* Can Milwaukee help secure this trade to herself? Will she do it? Or, shall it be left to Chicago to furnish the necessary capital to develope this country, and thus by affinity secure its business to herself? These are matters worthy of the earnest consideration of the business men of Milwaukee. MINNESHEIK.

HUNG OUT HIS SHINGLE.—C. K. Davis, Esq., who spent some time in this city, as Assistant Clerk of the Supreme Court, has recently opened a law office in Milwaukee. Mr. Davis is a young man of very superior talents, and extensive reading both in and outside his professional studies. Success to him.—*Madison Journal.*

## PROCLAMATION.

### THANKSGIVING.

It is right that all Christian nations should praise the Ruler of the Universe for His wonderful goodness to the children of men.

It is eminently proper that the people of this country should praise Him, for they are favored above all others, in their form of government, devised, under God, by the wisdom of their forefathers—in freedom to do all things that are right—in health, peace, prosperity—in a wonderful process of development which has already placed them in the foremost rank of the nations of the world.

The people of Wisconsin have extraordinary reasons for thankfulness the present year. The peaceful labors of the husbandmen have been blessed in a most remarkable degree, and their barns and storehouses are overflowing with the abundance of the harvest.—Surely, "He filleth them with the fleast of the wheat." Health has prevailed throughout our borders. Good order has everywhere reigned. The blessings of free education have been extended. All classes and professions have pursued their avocations with greater or less measure of success, under the protection of just and equal laws. If afflictions have come upon, or calamities overtaken us, the benign influences of Christian benevolence have hastened to dry the tears and minister to the wants of the bereaved.

Following time-honored custom, it is my privilege again to invite the people of Wisconsin to the observance of their annual festival of joy and gladness, and I do hereby appoint THURSDAY, the 29th day of November, 1860, as a day of THANKSGIVING and praise to the Almighty Ruler of the Universe.

And I recommend that the people of the State, on that day, laying aside the cares of life, gather together in their solemn assemblies, and, in manner and form approved by their consciences, return their thanks to God for His great goodness to us as citizens of a country blest, beyond others, with civil and religious Liberty, Educational Institutions, Peace and Prosperity; and especially for His overflowing blessings to the people of this Commonwealth, in Abundant Harvests, Health, Social Comforts and Privileges, and for all that contributes to their happiness and well-being as communities and individuals.

"Enter into His gates with thanksgiving, and into His courts with praise; be thankful unto him and bless His name."

When the feast is spread, and the tables groan with fatness, let not the poor be forgotten, nor any one found begging bread.

In witness whereof, I have hereunto subscribed my name, and caused the great seal of the State to be affixed.

Done at Madison, the 29th day of October, A. D. 1860.

By the Governor, ALEX. W. RANDALL.
EDWARD ILLSLEY, Asst. Sec'y of State.

**Brilliant Episode of the Battle of the Volturno.**

A correspondent of the *Debats* thus describes one of the most critical and brilliant episodes of the day:

The most brilliant episode of the action of the 1st of October, was the re-capture of the battery at the foot of Mount San-Angelo. When I left Santa-Maria, I knew that this battery had been very much disabled in the morning. Garibaldi arrived at nine o'clock, when the enemy was thundering at it with all his strength because *it took him in flank*, and was causing him severe loss. The triple battery courageously resisted the attack, and never slacked fire, when all at once the one situated at the foot of the hill became silent. The royalists, to the number of 2,500, got around the hill, and, rushing upon the guns, spiked five of them, and killed several of the men at their pieces. Garibaldi, on the San-Tammaro side, observed the silence of his favorite battery, and an aid-de-camp from Gen. Milwitz soon informed him of the dissster, which would probably have lost him the battle. Garibaldi at once started off, crossed Santa-Maria, followed by Medici and his staff, and, collecting what men he could, cried out in a voice which caused all to shudder: "We are going to die, but the Italians must win the day; at all other points we have conquered." Followed by 100 men, at a rapid pace, Garibaldi, leading the way in a small disabled carriage, went right forward. But just as they got near the Casino of San Angelo, some Neapolitan chasseurs who were lying on the ground rose and fell upon them. The coachman drove his horses into a ditch, and formed a barricade of the carriage. Garibaldi jumped up, indignant, and went up to the chasseurs, shouting "Viva Italia!" Some of his men coming up at the same time, the enemy became demoralized, and took to flight. Garibaldi was slightly wounded in the stomach, and his trousers were riddled by two or three bullets. "If I only had another pair," he said, and without further remark he continued his march towards the battalion of 150 Hungarians, commanded by General Megyorady. He pointed to the Neapolitans who were in possession of the battery, and cried out to them, "Forward, my lads, disperse that rabble yonder for me!" This "rabble" consisted of a regiment of the line, a squadron of cavalry, a company of chasseurs, and a company of artillery. The Hungarians, without waiting to count the numbers of the adversary, rushed forward and charged with the bayonet. After a contest of twenty minutes the battery was retaken, and once more it poured its storm of grape on the Neapolitan troops, who fled in confusion across the fields. The Hungarians in this encounter had 30 men put *hors du combat*—the Neapolitans about 200. Garibaldi did not wait to dress his wound, but hurried elsewhere. The day, however, was now won.

THE DAY AFTER THE BATTLE OF THE VOLTURNO.

Night came on and silence remained throughout, except when it was broken at intervals by the piercing cries of the wounded, who were calling for help. Many (says the correspondent of the *Debats*) died for want of adequate ambulance accommodation, and the peasantry took advantage of the darkness to rifle the dead. The next day was spent in collecting the wounded and dressing their wounds. Miss White, in a fantastic dress, devoted herself entirely to this mission. The hospital of Santa Maria was full, and train after train brought wounded men into Caserta. There were 480 in the hospital of Santa Maria on the 2d, and as many more in that of Caserta, without speaking of those who were carried into Naples. These, however, were not very numerous.

The field of battle was dotted with soldiers, who were either looking after the wounded, or giving a slight covering of earth to the dead. Still, however, on the 3rd there remained many bodies, most of them of the royalist party, exposed on the field. They were recognized by the tattooing on their bodies, the scapular of the Immaculate Conception around their necks, and by their kepis. The dead horses were left decomposing in the sun, which shone with a kind of calm funeral splendor.

The correspondent of the *Debats* says—"The guns of the barricades on the road to Capua were partly served by sailors belonging to the English frigate *Renown*, who, happening to be here as tourists in want of excitement, felt disposed to amuse themselves by hunting down the royalists. I saw them again on the 3d, merry as bridegrooms, returning to the *fete* of the cannonade. But it was a dismal day, for not a gun was fired."

**THE MIGHTY HEALER.**

LET NOT DISEASE, WITH ITS fangs, prey upon you, until the cold hand of death hurls you to an untimely grave. Shake off the feeling of despair and hopelessness, so liable to come upon the invalid. The plant born of the Sun we place within the reach of all. We care not what may be the specific order of the disease. The cause, the fountain of the disease itself, is impure blood, and through the different channels of the lungs, stomach and the vital organs, JUDSON'S MOUNTAIN HERB PILLS will pass, mingling with the blood, search out and grasp and then expel, all hurtful poison that there is in it. Thus cleanse the blood by a few doses of these Pills, and disease in any form, will dissipate and vanish. As the Sun with its glorious beams first causes the morning dew to rise as mist, then growing stronger casts his burning rays upon it—and behold 'tis gone—so cleanse the blood, and disease, like morning dew, retreats and vanishes. There is no blood purifier equal to JUDSON'S MOUNTAIN HERB PILLS.

Sold by all dealers in medicine.

**"I HAD A DREAM WHICH WAS NOT ALL A DREAM."**

BY J. R. COLE.

AIR—"*Susannah.*"

The other night when all was still,
I had a sort of dream,
In which I saw "Our Lavrabee"
Go tolling up the stream.
A frown was on his countenance,
And in each eye a tear,
And as he pois'd the bell along,
These words I seem to hear:
"My dear bro'ther"
Has proved too strong for me,
He's fought the battle—WON THE THIRD,
And scooped 'Our Larrabee.'"

Said Larrabee,—"I would have sworn
Upon the sacred word,
That in the present coming Fall,
I'd see the gallant Third;
But I have found LONG LEGS RUN BEST,
I'm feeling rather sore,
For I am sure that I'll be beat
By one who's SIX FEET FOUR."
"My dear brother'
Has proved too strong for me,
He's fought the battle,—WON THE THIRD,
And scooped 'Our Larrabee.'"

"Of whiskers I've a splendid pair,
And now they're of no use,
They do not make me any votes,
But oh—see this—this case:
I thought I would SLOAN'S ointment try,
And trim them all with care;
Instead of making them to grow,
It took out EVERY HAIR."
"My dear brother'
Has proved too strong for me;
He's fought the battle,—WON THE THIRD,
And scooped 'Our Larrabee.'"

The people now think less of me
Than they did in '58,
I hoped I'd go to Washington,
THEY SAY I'LL HAVE TO WAIT.
For SIX-FEET-FOUR they have a cheer,
For me—they have a groan;
They're bound to make a Congressman
Of HENRY A. SCOTT SLOAN."
"My dear brother,'
Has proved too strong for me,
He's fought the battle,—WON THE THIRD,
And scooped 'Our Larrabee.'"

"Way up among the northern wilds,
I came across a stream,
Six planks were taken from the bridge,'
Which left there quite a seam;
The night was dark, the stream was swift,
Old lightning rather shin,
If I'D BEEN DRUNK AS USUAL,
No doubt I'd tumbled in,"
"My dear brother,'
Has proved too strong for me,
He's fought the battle—WON THE THIRD,
And scooped 'Our Larrabee.'"

"No doubt some Abolitionist
Will take the planks away,
And thought that when I came along
THE DEVIL WOULD BE TO PAY;
But when I came I turned aside,
As I am apt to do,
And thus you see how I did cheat
THE DEVIL OF HIS DUE."
"My dear brother,'
Has proved too strong for me,
He's fought the battle,—WON THE THIRD,
And scooped 'Our Larrabee.'"

But LARRABEE, another stream
Most surely did discover,
With this DUE and DISCRIMINE,
He'll row up OLD SALT RIVER.
Our noble party soon will bridge
This mighty river o'er,
Then once we mount to use,
IS JUST SIX FEET AND FOUR.
"My dear brother,"
OUR CONGRESSMAN SHALL BE,
He'll fight the battle,—WON THE THIRD,
And scoop 'Our Larrabee.'"

**All about Two Cents.**

Colonel Burnham, the polite and popular mayor's marshal—and a more prompt and impartial meter-out of justice never filled the position—has some queer cases brought before him. Among those presenting themselves to-day to prefer complaints, was a well known commandant of one of our military regiments—a stern and unbending disciplinarian, who believes the maintenance of one's rights should be, under all circumstances, a paramount and ruling principle. Accompanying him were two ladies—his wife and a handsome young miss. Following them were a policeman and a roughly clad man of middle age, carrying a whip in his hand.

Col. —— told his story. He and his wife and niece took seats in a Broadway omnibus to ride to South Ferry. He passed the driver a ten cent piece and two fivepences to pay their fares. The driver passed back no change, and on his demanding two cents, the former declared he had paid him only eighteen cents. He expostulated—threatened. Expostulations and threats were of no avail. Seeing a policeman, he had the driver arrested.

"There the miserable scamp is," wound up the Colonel, pointing at the arrested Jehu, who in the assumption of innocent looks might have sat for the portrait of Aristides.

"And there is a miserable miser, who has brought me here for a paltry two cents," responded the unabashed driver.

"You confess, then, witholding two cents," said Col. Burnham.

"No, sir; the man only gave me three fares; I would swear to it."

"I would swear I gave you twenty cents," rejoined the complaining colonel.

"My oath is as good as yours," quickly responded the driver.

"Here is a Bible, we will see," said the marshal.

Kissing the cover of the sacred volume, the complainant reiterated his accusation under oath. The Bible was presented to the driver, who kissed it.

"Now, do you solemnly swear you received only eighteen cents from this gentleman?" asked Col. Burnham. "Remember the penalty of perjury."

"You have got me tight; I won't swear false," responded the driver, a little humiliated now in his manner; the man did give me twenty cents."

"What is your name?" asked the marshal.

"William Bloodgood."

"Your license is revoked."

"But let me explain; I have to"—

"I will listen to no explanations."

"Can't I say a word; I have a wife and seven children depending"—

"I will listen to nothing," said Colonel Burnham; "a man that would steal two cents would steal two hundred dollars if he had a chance.

"Perhaps the man will be honest in future," beseechingly uttered the niece.

"And sure I will," said the driver, "for my wife and children's sake I will; here are the two cents."

"It was not the money I wanted," said the complaining Colonel. "I wish to give you and all dishonest drivers a lesson."

Colonel Burnham and the complainant whispered together a few seconds. The marshal told the driver that he would not take away his license. The driver was completely humbled. Down his brawny cheeks rolled big tear drops; it was with difficulty he could express his gratitude at the leniency shown him. As he left he bowed gracefully to the young lady to whose intercession he evidently attributed his restoration to the place from which he had been a few minutes before deposed.

A few such energetic men as the complainant in the above case, aided by our present prompt city marshal, would bring offenders to speedy justice and effectually stop the manifold swindles every day practised with impunity in our midst.—*N. Y. World.*

THANKSGIVING.—We published on Saturday last the proclamation of the Governor of the State, fixing Thursday, the 29th of November, as Thanksgiving Day in Pennsylvania. The same day has been fixed upon by the Governors of Maine, New Hampshire, New York, New Jersey, Ohio and other States, and will no doubt be generally selected by the Executives of the Union. The festival is gradually taking a firmer hold upon the feelings of the people of all parts of our country, and is every successive year kept with greater regard to its original character. In Pennsylvania it trenches somewhat upon another holiday, Christmas, long held dear to us, and celebrated with peculiar spirit. Christmas was formerly to us what Thanksgiving Day has been always to the denizens of New England and New Year's Day to the New Yorkers. We still observe Christmas with much of the old fervor, and as the day of gifts it will probably never lose its popularity. Certainly the last few recurrences of the day have been accompanied by even increased liberality and festivity. Yet Thanksgiving has been assuming a character of its own more and more, partly religious in the devotional duties it enjoins, and partly domestic in the inevitable assemblages around the family hearth, and the gathering together of the scattered members of a social circle. In the face of accumulating proclamations from Governors of States recommending the same day for the observance of thanksgiving, we see no evidence of that disseverance of sentiment, or lack of nationality, of which some partisans talk so much. When this Thanksgiving Day shall occur, the great Presidential contest will be over. ABRAHAM LINCOLN will stand designated as the People's choice. The whole nation will have settled down calmly into acquiescence, and thus a new proof of the strength of the Republic will be afforded.—*Philadelphia North American.*

A FUSION INCIDENT.—We have mentioned that there was a Democratic Banner in Grand street, which the Republicans cast into the shade by a larger one, and where the Democrats have recently retaliated by erecting a larger one still.

An honest Hibernian was going along the street yesterday, when, noticing the banner last mentioned, he thus addressed a compatriot:

"Shure and that's not a Dimmicratic banner at all at all."

"Whist, ye musn't spake av the Dimmicratic party any more. It's the Union party they call us now."

"And faith it is a mighty quare party any way. There's no names up for Prisidint at all at all. Its meself that was t'ould 'twas two min we had up—and shure there's divil a one of their names on that thing."

BADLY BURNT.—We are sorry to hear that the Douglas leaders in this State have been terrible sufferers by the stock panic which Mr. Cobb, Mr. Schell, and their fellow plotters have got up in Wall street. Van Schaick, the broker, who exploded on Saturday was the confidential stock-agent of the Douglas men. Their losses are understood to be enormous. It was too bad of Cobb & Co. to take such vengeance on their ancient foes. They ought, at least now that fusion and harmony are the order of the day, to have given them warning of their final dodge, before it was too late. It is surprising how merciless and unforgiving is the hate of the Disunion managers for the Douglas Softs. But punishing them in the stock-market, after this style, is really too bad.—*N. Y. Tribune, Oct.* 30.

A CORRESPONDENT, writing from Panama, on the 6th inst., says: "Mora bore his fate manfully. The file of men drawn up for execution stood with their muskets not ten feet from him, and yet five balls in his body did not kill him. "Give me another shot, gentlemen," he said, "and finish me!" He refused to be blindfolded, but stood calmly facing his executioners. His body, as well as that of Canas, was thrown into a hole in the sand, both with the clothes on in which they were murdered. Canas was striking fire with his steel and flint to re-light his cigarito at the moment he felt the lead at his heart. He was shot at the foot of the monument erected to his honor for his many services to Costa Rica, in the Plaza at Punta Arenas."

GOV. BANKS, of Massachusetts, Gov. Goodwin, of New Hampshire, Hon. Israel Washburn, Jr. Governor elect of Maine, and Col. Curtin, Governor of Pennsylvania, met at the Revere House, Boston, one evening last week. The meeting was wholly accidental, as neither of the gentlemen had made an appointment to meet the other.

The shipments were very meagre, owing to the storm.

The prevalence of a heavy rain storm greatly restricted business to-day. The wheat market opened buoyantly under the combined influence of a downward tendency in freights and a further improvement at New York, and prices continued advancing until No. 2 spring reached 89c, and No. 1 91c in store, when there was a slight reaction, the market receding 1c towards the close of 'Change. About 70,000 bushels changed hands up to 1 P. M., at 89@91c for No. 1; 87@89c for No. 2, and 82@84c for Extra Club; the market closing at 90c for No. 1, and 85c for No. 2 in store. There was a large fleet of grain vessels in and freights had a strong downward tendency. Vessels were held nominally at 15c, but shippers would not name any figure, and up to the close of 'Change we heard of no engagements. Last evening, in addition to those named in our last report, the bark *B. G. Winslow*, and schrs. *Plover* and *Imperial* to Buffalo at 15, the *L. S. Shepard* to load at Racine at 17c, and the *Ostrich* to Ogdensburgh at 23c. Flour was more active, holders conceding to the offers of buyers, and about 2 200 changed hands at $3 to 4,80 for ordinary to good country Extra, and $3,15 for fair superfine.

After 'Change the wheat market was firm, but quiet at 90c for No. 1, and 88c for No. 2. The schr. *Barbarian* was chartered at 20c to load for Oswego.—Vessels were held at 15c to Buffalo, but shippers were offering only 14c. There was a report that two vessels were engaged at 15c, but we did not learn the names. We understand that there are upwards of 90 vessels on the market.

The telegraph this evening announced the arrival of the steamship *Europa*, with Liverpool advices of the 21st, four days later. Flour is reported firm and 6d higher; wheat dull at an advance of 1@2d; provisions dull.

Including flour, it will be seen that the receipts of wheat for the month amount to **2,645,441** bus, against 1,592,426 bus in October, 1859, exclusive of the deliveries by teams. The receipts of wheat at Chicago for the month, not including flour, were 3,451,458 bus, or 1,140,559 bus more than at Milwaukee. The daily receipts here are now, however, larger than at Chicago, and in the spring the difference will doubtless be in our favor as much as it has been against us during the Fall, if not more so. The light receipts of coarse grains are accounted for by the fact that the farmers have been so much occupied with their wheat as to have little time to send anything else to market.

CHICAGO MARKET, OCTOBER 31.

Receipts at Chicago yesterday included 4,467 bbls flour, 66,363 bus wheat, 11,598 bus corn, 6,320 bus oats, 2,776 bus rye, 1,573 bus barley. In reference to the market the *Tribune* says:

The receipts of wheat to-day were again light, amounting to but 68,363 bus. This, with a decline in freights and an improvement in Eastern markets, caused a better inquiry by shippers, and prices advanced fully 1c per bus. Northwestern Club was in particular request, and the sales were heavier than usual. Of all grades the transactions amounted to 155,000 bus, at 88¾@85c for Northwestern Club; 88@85c for No. 1 spring; 80¾@81½c for No. 2 spring; and 70@73c for rejected—the market closing steady at 81c for No. 2 spring, and 84c for No. 1 spring. The flour market was without any important change in prices. About 1,250 bbls were sold, at $4@4¼c for common to choice spring extra, and $3,80@3,95 for spring *super*. There was an active demand for No. 3 corn, and this grade advanced ½c, but there was no change in other grades. New corn was in better request and lower prices. The sales of all kinds amounted to about 75,000 bus, at 34c for No. 2 canal afloat; 35c for No. 1 in store; 33@34c for No. 2; 30c for rejected; and 29c for new corn. Oats were quiet but firm, with limited sales at 18½c afloat. Rye advanced 1c, with more activity at 40¾@42c for No. 1 in store. Barley dull, with limited sales at 85@87c for No. 2 in store, and 40@43c for fair to prime on track. Timothy seed was in good request and firm at $2,15@2,25. Highwines quiet at 19@19½c. Broom corn very dull. Hides are in active request by tanners and shippers, and full prices are maintained.

Business in live stock is light. Beef cattle are dull and heavy, except for prime—the sales to-day ranging from $1,75@3 25. Hogs quiet but firm at $3,25@3,30 for good to prime corn-fed. The packers of Boston and Cincinnati have purchased their houses on account of the warm weather during Monday and Tuesday, and they have not yet resumed operations.

Freights declined 1@1½c to-day, and there was more activity. Two propellers and twelve sail vessels were taken at 12c for barley and 20c for corn to Owego; 14¾@15c for corn to Buffalo; and 15@15½c for wheat to Buffalo, principally the inside quotation.

### The British Corn Trade.

*From the Mark Lane Express, Oct.* 8.

The weather having continued fine throughout the week, a great deal of corn in the field is in jeopardy has been secured, some of it in tolerably fair order. There are many localities, however, where the harvest is still incomplete, and much of the second crop of grass has perished. The prospect of the nation in respect of cereals has become materially altered, and our necessaries have proportionately diminished. We can-not as yet, though, congratulate the country upon having gathered an average crop of wheat; while the quality is much below that rate, some of the new samples sent to the London and other markets being quite unfit for the mill. The consequence has been an unusual demand, and fluctuations here—say by ship and rail, at the rate of 50,000 to 60,000 qrs. per week—25,000 qrs. have been sent by the Eastern Counties Railway alone in that time. Nor will this much diminish till the new samples are better fit for manufacture, though the past week has been calm. Prices, on small supplies, have still been pointing forward, on an average from 1s to 2s per qr. But should foreign supplies continue free, and the weather fine, a temporary check may be expected. With all the benefit of the change of weather, it will not still be well to overlook the great deficiency in potatoes.—Taking it at one-third in Ireland on the growth there this season, and accepting the yield per acre at 6 tons, instead of 9 tons, on 1,171,678 acres, we find that country short in human food no less than 3,515,611 tons.

Now as the ton may equal a quarter of wheat weighing 480 lbs (which is estimating 45 lbs of potatoes equal to 1 lb of flour) we want 3,515,611 qrs of wheat or make to this scarce. But as in England the failure of this root is equally great, we take the yield to be equal to half as much more, which brings the waste of the United Kingdom, without Scotland, for potatoes only, to 5,273,866 qrs of corn. Starting even as this is, a partial failure in turnips or mangold wurzel across Ireland to make additions to this account. The wheat crop though in a bad state, may be considered safe; and its latenes will diminish our necessities by about one-tenth—to be made up, perhaps, by the supplies of America. However, the free tribute of all other countries may be required by the close of the season, and it will be dangerous to practice waste or assume plenty while we cannot disturb these figures.

The arrivals off the coast since the 25th ult., were fifteen cargoes, of which nine cargoes were wheat, five cargoes maize and one beans.

The sales noted last week were 69,445 qrs wheat at 56s 11d, against 139,594 qrs in the corresponding period of last year.

The London averages were 56s 4d on 2,570 qrs.

The arrivals of wheat and flour into the principal ports of Great Britain for the week ending September 29th were equal to 178,564 qrs, including 7,549 qrs of colonial.

THE CROPS IN FRANCE—MORETTE.

The *Mark Lane Express* of the 8th inst. contains the following:

According to accounts received from France, the harvest in the northern part of that country has been almost as unfavorable as that with us. The crop, it appears, would have been good but for the incessant rains, by which extensive damage has been done to the grain. This has sprouted both on the sheaf and before it was cut. A good deal of the mischief, however, has been prevented by the *meyettes*, which are generally very successful. The plan is to set a small number of sheaves together, with their heads inclining to each other; then to make a large sheaf, or blind three or four sheaves together at the top; and, over-ling them, to set an inverse pair, thus over the others, forming a cap, which shoots off the rain, and prevents the inner sheaves from sustaining any damage. This could be practiced in this country as well as in France, and with as good an effect.

THE GREAT STORM.

Towards 12 o'clock Wednesday night a heavy gale set in from the Northeast accompanied by a drenching rain, and up to the present writing has continued unabated. It looks as if it was going to be the worst storm we have had this season. It has brought in an immense fleet of vessels, all of which, however, are not destined for this port, but merely in for shelter. At 12 o'clock yesterday, we counted *fifty-five* sail vessels between Spring Street Bridge and the Straight Cut, about forty of which were empty grain vessels.—The docks below Walker's Point Bridge were lined with vessels from two to four, and in some instances were five abreast, and several others were in the bay standing in under close reefed foresail and jib. It was a grand sight to witness them coming in close together, and running up the river as far as the D. & M. Railway dock under canvass. The schr. *Cairo* sailed up to KELLOGG & SHOCK'S warehouse in fine style, but some others, commanded by masters less familiar with our harbor, came to anchor as soon as they emerged from the Straight Cut, and by doing so caused themselves and others a good deal of unnecessary trouble. At one time there was a complete blockade at the mouth of the river, and as there were other vessels near the harbor coming in, a serious collision seemed imminent, but the timely aid of the tugs *Davidson* and *Tiff* averted it. One schooner, whose name we could not see, left her anchor and several fathoms of chain in the river near the Straight Cut, but as there was a buoy attached to it, there will be little difficulty in recovering it. An old tub of a lumber vessel had her bowsprit knocked off, and then drifted aground near Jones' old ship yard. These were the only mishaps that occurred.

GOOD TIME.

The schooner *Lookout*, Capt. Money, cleared from Buffalo on Saturday night, and arrived here early yesterday morning, having made the run from Buffalo to this port in *four and a half days*, and performed the round trip, including the time occupied loading here and unloading at Buffalo, in *thirteen days*. The trip previous to this she accomplished in twelve days and seven hours, so that she has carried two cargoes of wheat from Milwaukee to Buffalo, and got back here ready to load for the third trip, all in a little over *twenty-five days*. The *Lookout* is fairly entitled to the championship of the Lakes for fast sailing.

PASSED DETROIT.

The following is a list of vessels that passed Detroit yesterday morning:
